Summary

As a student of Computer Science and Engineering, I am actively developing my skills and staying up to date with industry standards. My passion for programming drives my enthusiasm for completing projects and staying informed about the latest advancements in the field. I am dedicated to gaining the knowledge and experience needed to excel in the industry.

Education

MIT-SOC, MIT ADT University , Pune. Bachelor of Technology (CSE)	10/2021 - Present Result: 8.49 CGPA (as of now)
Varqa School and Junior College , Ahmednagar. Higher Secondary School Certificate	03/2019 - 02/2020 Result: 70.92%.
Varqa School and Junior College , Ahmednagar. Secondary School Certificate	04/2017-03/2018 Result: 88.2%.

Certificates

Python	<u>PCAP: Programming Essentials in Python</u>	Cisco Networking Academy. Issued Nov 2022
English	<u>Linguaskill</u>	Cambridge University Press & Assessment English. Issued Sep 2022
C++	<u>CPA: Programming essentials in C++</u>	Cisco Networking Academy. Issued Jun 2022
SQL	<u>1. Learn SQL</u> <u>2. SQL Intermediate</u>	CodeChef. Issued Aug 2023

Skills

Python | Java | MySQL | HTML | CSS | C++ | C | Project Management | Data Structures and Algorithms

Languages

English | Hindi | Marathi

Projects

Touropedia:

A Python based GUI (Graphical User Interface) which recommends ideal destinations based on user interests, combining comprehensive location information into a single platform for seamless planning and exploration.

- Leveraging Python and the Tkinter module, I architected a user-friendly interface that actively engages users in personalizing their travel experiences.
- As the lead developer for Touropedia, a dynamic tour management system, I orchestrated a collaborative effort among a team of four.

Password Manager:

Designed and developed a secure password manager utilizing Python and Tkinter.

- Implemented secure local storage, enhancing data privacy, and reducing the risk of online breaches.
- Designed an intuitive interface for easy password management, making online security accessible to all users.

Position of Responsibility

GeeksForGeeks MIT-SOE | Technical team member

Feb'23 - Aug'23

- As a dedicated technical member, I have consistently contributed to the seamless organization of both online and offline events, leveraging my expertise to provide essential technical resources and support for the club's success.
